

S. 2006. A bill to require breast density reporting to physicians and patients by facilities that perform mammograms, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

Mrs. FEINSTEIN. Mr. President, I rise today to introduce the "Breast Density and Mammography Reporting Act," a simple, yet potentially life-saving solution to ensure that women receive their own medical information. I thank Senator HELLER for working with me on this bipartisan bill and I appreciate Representatives DELAURO and FITZPATRICK for introducing a House companion to this legislation.

We have accomplished so much in the treatment and diagnosis of breast cancer, and it still continues to be the second leading cause of death for women in the United States and the leading cause of cancer death among Hispanic women. Mammograms have aided tremendously in early detection efforts, helping many more women survive this diagnosis.

For women with dense breast tissue, however, a mammogram may not be capturing the whole picture. Dense breast tissue and cancer tumors look similar on a mammogram and make cancer harder to detect in women with higher breast density. Unfortunately, many women are never told about their tissue density on the report they receive after their screening, even though it is assessed and reported to their health care provider. This leaves women unaware their mammogram could be missing signs of cancer. If a patient doesn't have information to begin with, how would she know to ask her doctor about what additional screening might be right for her?

There is currently no Federal requirement for women to receive notice that they have dense breast tissue on their mammogram report. This bill would require that women be informed on the mammogram report, something they already receive, if they have dense breast tissue, as well as a recommendation that they talk with their health care provider to discuss any questions and if they might benefit from additional screening. The bill also requires the Department of Health and Human Services to focus on research and improved screening for patients with dense breast tissue.

The bill does not impact State laws and simply sets a minimum Federal standard on a report that women already receive. Any State wishing to have additional reporting requirements would be able to do so. Withholding from women their own medical information just does not make sense. Having access to your breast tissue density could mean the difference between catching breast cancer early and surviving, or waiting until it's too late.

This bipartisan bill has the support of major cancer organizations, including American Cancer Society Cancer Action Network, Are You Dense Advocacy, Susan G. Komen, DenseBreast-

info, Tigerlily Foundation, Prevent Cancer Foundation, Facing Our Risk of Cancer Empowered, Don't be a Chump! Check for a Lump!, Sharsheret, National Association of Nurse Practitioners in Women's Health, Black Women's Health Imperative, and Men Against Breast Cancer.

I look forward to working with my colleagues on this important issue, and I urge my fellow Senators to cosponsor the Breast Density and Mammography Reporting Act. Thank you Mr. President and I yield the floor.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 303—EX-PRESSING SUPPORT FOR THE DESIGNATION OF OCTOBER 2017 AS "NATIONAL AUDIOLOGY AWARENESS MONTH"

Ms. WARREN (for herself, Mr. GRASSLEY, and Ms. HASSAN) submitted the following resolution; which was referred to the Committee on Health, Education, Labor, and Pensions:

S. RES. 303

Whereas, according to the Centers for Disease Control and Prevention, hearing loss is the third most common chronic physical condition in the United States;

Whereas the National Institute on Deafness and Other Communication Disorders and the Centers for Disease Control and Prevention have found that 24 percent of adults in the United States, or 40,000,000 individuals, may have noise-induced hearing loss in 1 or both ears;

Whereas, although the prevalence of hearing loss increases with age, approximately 40 percent of individuals with hearing loss are under the age of 60;

Whereas people with hearing difficulty frequently delay seeking assessment and treatment for their hearing loss;

Whereas audiologists, whose academic and clinical training provides the foundation for patient management from birth through adulthood, are dedicated health care professionals who diagnose, treat, and manage hearing loss and balance disorders;

Whereas audiologists treat patients in many different settings, including private practice, hospitals, schools, Veterans Health Administration hospitals, and otolaryngology offices;

Whereas October 2017 would be an appropriate month to designate as "National Audiology Awareness Month"; and

Whereas there is a need for greater awareness on the part of the public regarding issues related to the hearing and balance care provided by audiologists, including—

(1) the diagnosis and treatment options available to the public;

(2) the research needs of audiologists; and

(3) the public policy implications of changes in the field of audiology: Now, therefore, be it

Resolved, That the Senate—

(1) supports the designation of October 2017 as "National Audiology Awareness Month"; and

(2) applauds the actions of audiologists, including clinicians, researchers, and others who strive to raise public awareness of hearing and balance care by advancing the profession of audiology.

SENATE RESOLUTION 304—EX-PRESSING THE SENSE OF THE SENATE THAT ENTREPRENEURSHIP ON THE PART OF MINORITY WOMEN-OWNED BUSINESSES SHOULD BE FULLY SUPPORTED AND ENCOURAGED

Ms. DUCKWORTH (for herself and Ms. HIRONO) submitted the following resolution; which was referred to the Committee on Health, Education, Labor, and Pensions:

S. RES. 304

Whereas the number of women-owned small businesses increased by 3,500,000 from 2007 to 2016;

Whereas, for every 10 women-owned businesses launched since 2007, 8 were started by women of color;

Whereas women are now majority owners of 38 percent of all businesses in the United States;

Whereas there are currently almost 5,000,000 minority women-owned small businesses;

Whereas minority women are the fastest growing group of entrepreneurs in the United States;

Whereas African-American women own fully 49 percent of all African-American-owned businesses;

Whereas Latina-owned firms employ 550,400 workers;

Whereas there are currently 922,700 Asian-American women-owned small businesses;

Whereas Native American and Alaska Native women-owned small businesses generated \$10,500,000,000 in revenues; and

Whereas the number of Native Hawaiian and Pacific Islander women-owned small businesses more than doubled between 2007 and 2016: Now, therefore, be it

Resolved, That it is the sense of the Senate that—

(1) October has been designated "National Women's Small Business Month" by the Small Business Administration;

(2) minority women often work in low-paying jobs in the traditional workforce, which means the gender salary gap, child care expenses, and a lack of paid family leave impact women of color more severely than other populations, and expanding access to opportunities for entrepreneurship can help women of color get ahead economically, serve their communities, and care for their families;

(3) minority women entrepreneurs are paving the way for women-owned businesses;

(4) minority women entrepreneurs are an important segment of the domestic economy of the United States as well as the global economy; and

(5) in order to sustain the economy of the United States, Congress must fully support and encourage the growth of minority women-owned businesses.

SENATE RESOLUTION 305—RECOGNIZING THE MONTH OF OCTOBER 2017 AS FILIPINO AMERICAN HISTORY MONTH AND CELEBRATING THE HISTORY AND CULTURE OF FILIPINO AMERICANS AND THEIR IMMENSE CONTRIBUTIONS TO THE UNITED STATES

Ms. HIRONO (for herself, Ms. DUCKWORTH, Ms. MURKOWSKI, Mr. KAINE, Mr. BLUMENTHAL, Mr. HELLER, Mrs. FEINSTEIN, Mr. MENENDEZ, Ms. CORTEZ MASTO, Ms. CANTWELL, Mr. BOOKER, Mr. BROWN, Mrs. MURRAY, Mr.
